

Pedestrian Safety on Wallace Wade Avenue

In an effort to make the area around Bryant-Denny Stadium safer for all pedestrians, UA created a dedicated Transit/Emergency Vehicle lane on Wallace Wade Ave. from University Blvd. to 8th Street. The vehicle lane has a bike fence barricade restricting pedestrians from entering in the drive lane.

If you want to cross over Wallace Wade there are two pedestrian crossing points. One is near University Blvd. and the other at 8th Street. Both pedestrian crossings points are designed to accommodate people with disabilities.

Other parking for people with disabilities is at the Campus Drive Deck. Buses run from this deck to the stadium.

If you use a wheelchair or scooter please park at the Communications Card Lot. This will give you the closest unobstructed route to the stadium.
